EXPLANATORY NOTES

SYMBOLS USED

Throughout this bulletin the following symbols have been used -

- n.a. Not collected, not available for publication,
or not applicable.
- Nil (or less than 0.5).
- p Preliminary figures.
- r Revised since previous issue.
- Break in continuity of series (where drawn across
a column between two consecutive figures).

A blank space in a column of figures means the figure concerned is not yet available.

When the symbol "p" or "r" is placed in the column headed "Period" (as for example on page 15) it refers to all figures on that particular line.

ROUNDING

In tables where figures have been rounded, discrepancies between totals and sums of components are due to rounding.

PRODUCTION SERIES

Details of production on pages 10-13 are for selected items only. Particulars for several commodities of considerable importance in this State have been withheld because publication would reveal confidential information. Final amendments are made only to annual and not to monthly production figures.

NOTE: The employment figures to February 1969 previously published have been replaced by a new series (above) using benchmarks derived from results of the population census of June 1966. The new series is generally at a higher level than the old, for two reasons: (a) the adoption of a new definition of the labour force in the 1966 population census which resulted in the inclusion of a considerable number of part-time employees (mostly females) previously excluded and (b) the inclusion of full-blood Aborigines. The figures are subject to revision.

(a) Civilian wage and salary earners at last pay day in month. EXCLUDES employees in agriculture and in private domestic service.

(b) At end of month.
